## SUMMARY

AI-focused Information Engineering graduate (Syrian Virtual University, 2025). Freelance web developer with 4+ years building full-stack solutions using Laravel and Vue.js, delivering modern UIs and RESTful integrations for clients (notably in the UAE). Experienced with Agile delivery using Jira. Since 2024, leveraging AI-assisted development tools (Cursor, GitHub Copilot, Windsurf, Trae) to accelerate implementation and code quality. Currently expanding skills in Flutter and applied machine/deep learning; hands-on with prompt engineering, LLM agents, and token-economy optimization (context budgeting, cost/performance control).

## CORE SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6), Vue.js, Bootstrap

Backend & APIs: PHP, Laravel, RESTful APIs, Node.js, Express.js, Python, Django (expert)

Databases: MySQL

Mobile: Flutter & Dart

AI/ML: Python, Machine Learning, Deep Learning, TensorFlow (in progress)

AI-Assisted Development: Cursor, GitHub Copilot, Windsurf, Trae (since 2024)

LLM/Agents: Prompt engineering, agent workflows, token optimization

Tools & Platforms: Git, CI/CD, Linux, Docker, AWS (basics), Coolify

Practices: Agile development, Jira, CRM

## EXPERIENCE

### Full stack Web Developer — Remote | 2021–Present

- Deliver end-to-end web applications using Laravel and Vue.js for SMEs and e-commerce clients in the UAE.
- Build and integrate RESTful APIs; enhance performance and UX; ship iterative features based on client feedback.
- Manage source control with Git and coordinate milestones and backlog in Jira within Agile practices.
- Adopt AI coding assistants (Cursor/Copilot/Windsurf/Trae) to speed up development, refactoring, and test coverage.
- Provide post-launch support and incremental improvements aligned with scope and budget.

## SELECTED PROJECTS

**Mazadouna** — Graduation project: Auction platform with AI recommendation system | Tech: Django, Vue.js, AI System

**Arak Perfumes** — E-commerce store | Tech: Laravel, Vue.js, MySQL, Bootstrap | Link: [arakeperfumes.ae](https://arakeperfumes.ae)

**GoMedia** — Corporate/Portfolio website | Tech: Laravel, Vue.js | Link: [gomedia.com](https://gomedia.com) (in progress)

**SwissDuft** — E-commerce store | Tech: Laravel, Vue.js | Link: [swissduft.ae](https://swissduft.ae) (in progress)

**HighnessMedical** — Corporate/Portfolio website | Tech: Express.js, Vue.js | Link: [highness-medical.com](https://highness-medical.com)

## EDUCATION

**Syrian Virtual University — BSc in Information Engineering, Artificial Intelligence specialization | 2020 to 2025**

## CERTIFICATIONS

Atlassian Jira — Certificate/Training (ready to use Jira in professional environments)

## LEARNING & RECENT FOCUS

Building hands-on projects in Flutter and applied machine/deep learning with Python/TensorFlow.

## LANGUAGES

Arabic — Native

English — Excellent overall; intermediate speaking; currently enrolled in conversation practice at English Island (Intermediate).
